

RE FINGER PRINT CARD:

105.902 - NOTES

T. does not remember whether or not there was more than one card. He recalls that there was one card lying on the ground near Mr. Hall's feet but does not think it was caught in the heel or sole of the shoe. His recollection is that it was caught between blades of grass and supported in a partial upright position by the grass. The card was given by him to the New Brunswick officials. He never knew of any finger prints having been found on it until quite lately.

Failing to find them there, they went on into the Phillips farm; and under a tree they saw two persons sitting whom they supposed to be Pearl and her father. Schneider had had a gun, which Hayes took and shot the two persons under the belief that they were Pearl and her father. Hayes and Schneider then left, but something made Schneider wonder whether
